

# MASTER GRINDERS

## KUBAN TURK

Our **KM05** series has been manufactured and developed for more than 20 years and is almost as old as KUBAN. As one of the machines produced by using our knowledge and experience in the best way possible, the **KM05** series has crowned its success by becoming the most-preferred product and proved this with its sales. It is named by our customers for offering the best grinding process for Turkish coffee.

### GRINDING CAPACITY

16 kg/hour - Turkish Coffee
